EXTERIOR PROTECTION

ADVANCED HYDROPHOBIC FORMULA FOR CERAMIC SURFACE COATINGS

THE GRAPHENE DIFFERENCE

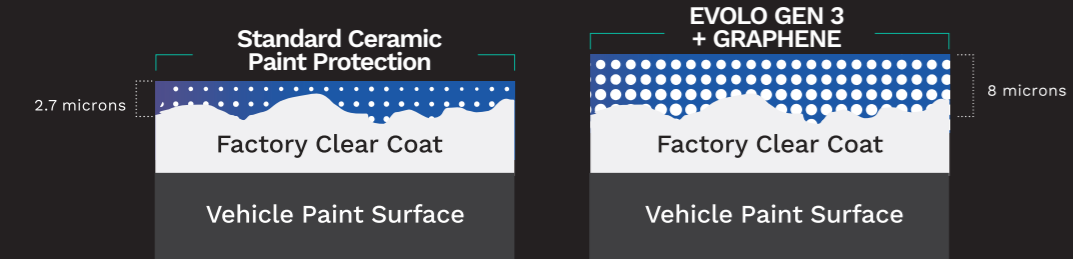

A CERAMIC COATING WITH GRAPHENE

EVOLO GEN 3 + GRAPHENE brings exceptional levels of hardness and greater defence against fading and oxidation of clear and base coats. Creating a hybrid formula (Silicon Dioxide + Silicon Carbide, augmented with Graphene) EVOLO GEN 3 + GRAPHENE bonds deeper into the vehicle's paintwork and is noticeably smoother to touch and optically shinier.

THE EVOLUTION OF CERAMIC TECHNOLOGY

THE EVOLUTION OF CERAMIC TECHNOLOGY

Original EVOLO GEN 1 had a thickness of 2.7 microns. Our New EVOLO GEN 3 + GRAPHENE is now an incredible 8 microns and almost double the thickness of most other coatings.

ADVANCED PROTECTION AGAINST

- + WEATHER INDUCED OXIDISATION, FADING & LOSS OF GLOSS
- + BIRD DROPPINGS
- + TREE SAP & BUG SPLATTER
- + BORE WATER & WATER MARKS
- + RAIL DUST & FALLEN LEAVES
- + CLEAR COAT DELAMINATION
- + SUNSCREEN

(limited 6 year warranty for vehicles less than 12 months old at date of application).

ADDITIONAL BENEFITS

- + Once-off application with no inspections
- + Professionally applied
- + Less maintenance, keeps your vehicle cleaner for longer
- + Backed by a nationwide limited lifetime warranty*

ADVANCED TESTING TECHNIQUES

Thorough testing helps develop a top performing formula.

300 HOURS OF
